RE: City Utilities Purchase Order No. 11116

Gentlemen and Mrs. Bradbury:

The Department of Purchases respectfully requests "Prior Approval" of City Utilities purchase order no. 11116, with respect to the purchase and installation of a central air conditioner for the Water Pollution Control Plant Laboratory. The new system will cost $9627.00 and 10 days to deliver. The lab must maintain temperature controls of between 70 and 80 degrees to remain in operation.

A special ordinance for formal approval will be submitted in the very near future.

RE: W.P.C. PLANT REQUISITION 151

* *

Last week an emergency purchase order was requested to have Poorman Heating to repair the laboratory air conditioner/ heating unit. The unit is Trane, installed in early 1981. Over the past several years, considerable repairs have been made to the system, including one new compressor.

After inspection by Poorman's Heating (they are a Trane dealer), the unit will require the other compressor to be replaced and a new coil to be manufactured and installed. The estimated delivery date on the coil is eight (8) weeks after the order is placed. The estimated price for the material and installation is $6000, plus freight. The new unit would have a one year warranty.

Another possibly is to purchase a new air conditioner/ heating unit installated for $9627 with a 10 day delivery. The new unit would have one year warranty on the whole system and five years on the compressors.

Due to the possibility of other items failing on the existing units and the long delivery date on the replacement parts, I am recommending purchasing a new air conditioning/ heating unit. If possible, I would like prior approval, due to the extremely hot weather, so that the order can be placed as soon as possible.
